PROCEDURE ADOPTED AND VALUATION METHOD(S) FOLLOWED FOR THE ASSIGNMENT:

I. APPROACH CONSIDERED IN OUR VALUE ANALYSIS:

General Principle for Valuation

There is no single definition of the term 'Value' that is suitable for all purposes or at all times. The value of a particular asset may vary according to different valuation methodologies that are adopted to ascertain the value for a specific purpose. Valuation of securities is an inexact science. It may sometimes involve a set of judgments and assumptions that may be subject to certain uncertainties.

Selection of Valuation Methodology

The objective of the valuation process is to make a best reasonable judgment of the value of the shares of the Company. There are a number of valuation methodologies to value companies / businesses using historical and forecast financials of the company. Commonly used valuation methodologies are as follows:

📌 Net Asset Value (NAV) Method

In Net Asset Value (NAV) Method, the assets and liabilities are considered at realizable value or book value, including intangible assets and contingent liabilities, if any, which are not stated in the balance sheet. From the value of the assets, the potential liabilities which would have to be paid would be deducted and resultant figure is the NAV of the company.

This valuation approach is mainly used in case where the asset base dominates the earnings capability or in a case where the valuing entity is a holding company deriving significant value from its assets and investments.

NAV Method is most applicable for the business where the value lies in the underlying assets or in cases where the ongoing operations of the business and the potential future cash flows of the business cannot be reasonably estimated or where the operations / business of an entity is discontinued.

Discounted Cash Flow (DCF) Method

The Income Method focuses on the profit/earnings potential of the business being valued. The Income Method of valuation includes Discounted Cash Flow (“DCF”) Method which has been discussed hereinafter. Under DCF Method, the free cash flows attributable to the firm for a predetermined number of future years and perpetuity are considered and discounted to their present value. The free cash flows attributable to the firm are the cash flows from operating activities as reduced by the estimated/ planned capital expenditure and working capital requirement in each of the future years.

The cash flow projections, the estimations of capital expenditure and working capital requirement are based on the management’s view of the future business prospects of the company and the anticipated economic conditions in relation to the industry in which the company operates. This method is particularly useful for unlisted and going concern companies or those without clear market comparable, as it focuses on the company’s internal financial performance and future prospects, rather than external market conditions. In the Present case scenario, the DCF method is used to value the transferee company.

Market Price Method {(90 trading days (TD)- 10 Trading Days (TD)}

The market price of an equity shares as quoted on a stock exchange is normally considered as value of the equity shares of that company where such quotation are arising from the share being regularly and freely traded in, subject to speculative support that may be inbuilt in the value of the shares. But there could be situation where the value of the shares as quoted on the stock market would not be regarded as proper index of fair value of the shares especially where the market values are fluctuating in volatile capital market. Further, in case of a merger,

where there is a question of evaluating the shares of one company against those of another, the volume of transactions and the numbers of shares available for trading on stock exchange over reasonable period would have to be of a comparable standard.

Equity shares of transferor company are listed on BSE and are frequently traded in terms of Part IV, Pricing, Chapter VII of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018 ('ICDR Regulations'). Equity shares of transferee company are not listed on any stock exchange.

Comparable Company Multiples (CCM) Method

Under the Comparable Companies Multiple Method, the value is determined on the basis of multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation method is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation.

Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances. The base(s) to which a multiple is commonly applied include sales, EBITDA, cash flows and book value.

Given this and the non-comparability with listed companies, this method has not been used to calculate the fair value of equity shares of the Companies.

II. Basis for arriving at Swap Ratio:

Based on the discussions in the preceding paragraphs w.r.t valuation methodologies as well as regulatory requirements, we have determined appropriate value of the equity shares of REL and STL based on Market Price Method and Discounted Cash Flow Method.

SHARE EXCHANGE RATIO FOR MERGER

SHARE EXCHANGE RATIO FOR MERGER:-

BSE Circular No. LIST/COMP/02/2017-18 dated 29 May 2017 require the valuation report for a Scheme of Arrangement to provide certain requisite information in a specified format. The disclosures as required under BSE Circular is mentioned below:

	Valuation Approach	Asset	Market		Income	Weighted Average Equity Value per share (INR)
			Enterprise to EBITDA multiple	Market Price Method		
Rudra Ecovation Limited (Transferor Company)	Weights	NIL	NIL	100%	NIL	
	Equity Value Per Share (INR)	NIL	NIL	71.88	NIL	
	Weighted Average Equity Value per share (INR)	NIL	NIL	71.88	NIL	71.88

	Equity Value Per Share (INR)	NIL	NIL	NIL	337.26	
	Weighted Average Equity Value per share (INR)	NIL	NIL	NIL	337.26	337.26

Method of Valuation:

Adjusted Net Asset Value Method

The asset-based valuation method is based on value of the underlying net assets of the business, either on bookvalue basis or realizable value basis or replacement cost basis. The net asset value ignores the future return the asset can produce and is calculated using historical accounting data that does not reflect how

much the business is worth to someone who may buy or invest in the business as a going concern. This valuation approach is mainly used in case where the firm is to be liquidated i.e. it does not meet the "going concern" criteria or in case assets base dominate earnings capability.

The value arrived at under this approach is based on the financial statements of the company and may be defined as "Shareholders' Funds" or net assets owned by the company. The balance sheet values are adjusted for any contingent liabilities that are likely to materialize. Net Assets value method reflects the net current assets base and value to equity-to-equity shareholders in historic terms.

Comparable Companies Multiples (CCM) Method

Under this method, one attempts to measure the value of the shares/ business by applying an appropriate capitalization rate/ multiple (the EV/Revenue multiple, the EV/EBITDA multiple, etc.), for which one may also consider the market quotations of comparable public/ listed companies possessing attributes similar to the business - to the future maintainable profits of the business (based on past and / or projected working results adjusted to reflect the future earnings potential) after making adjustments to the capitalization rate/ multiple on account of dissimilarities with the comparable companies and the strengths, weaknesses and other factors peculiar to the company being valued.

Consequently, identifying comparable listed companies to the company being valued, both in business and financial terms, is highly important.

Based on our analysis and discussion with the Management, we understand that there are no listed companies that can be considered as a company comparable to the Companies having regard to the size, business profile and financial performance, we have therefore not used CCM Method to value the equity shares of respective Companies.

Market Price Method [(90 Trading Days (TD)) - 10 Trading Days (TD)]

The market price of an equity shares as quoted on a stock exchange is normally considered as value of the equity shares of that company where such quotation are arising from the share being regularly and freely traded in, subject to speculative support that may be inbuilt in the value of the shares. But there could be situation where the value of the shares as quoted on the stock market would not be regarded as proper index of fair value of the shares especially where the market values are fluctuating in volatile capital market. Further, in case of a merger, where there is a question of evaluating the shares of one company against those of another, the volume of transactions and the numbers of shares available for trading on stock exchange over reasonable period would have to be of a comparable standard.

Equity shares of REL are listed on both BSE and are frequently traded in terms of Part IV, Pricing, Chapter VII of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018 ('ICDR Regulations'). Equity shares of STL are not listed on any stock exchange.

Discounted Free Cash Flow (DFCF) Method

Under this technique, either

1. the projected free cash flows from business operations available to all providers of capital are discounted at the weighted average cost of capital to such capital providers, from a market participant basis, and the sum of such discounted cash flows is the value of the business, from which value of debt and other capital is deducted, and other relevant adjustments made to arrive at the value of the equity - Free Cash Flows to Firm ("FCFF") technique.

INSTITUTE OF COST ACCOUNTANTS OF INDIA

Or

2. the projected free cash flows from business operations available to equity shareholders (after deducting cashflows attributable to the debt and other capital providers) are discounted at the cost of equity, from a market participant basis, and the sum of such discounted free cash flows, after making other relevant adjustments, is the value of the equity - Free Cash Flows to Equity ("FCFE") technique.

CONCLUSION & OPINION

The Management has provided us with long-term business plan of the STL. Considering the same we have considered the Discounted Cash Flow Method for arriving at the fair value of the shares of the Specified Company.

Further since REL is listed Company we have considered Market Price for valuation of shares of REL and we have further considered SEBI ICDR Regulations.

In case of a valuation for merger, the emphasis is on arriving at the "relative" values of the shares of the merging companies to facilitate determination of the "share exchange ratio". Hence, the purpose is not to arrive at absolute values of the shares of the companies.

"Subject to the above read with the caveats as detailed later, we as a Merchant Banker hereby certify that pursuant to SEBI Master Circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/0000000665 dated November 23, 2021, we have reviewed the proposed Scheme of Arrangement for merger, the Valuation Report dated 18th December, 2024 of Mr. Subodh Kumar, Registered Valuer, with respect to the share exchange ratio aspects and consider it to be fair and reasonable from the point of view of equity shareholders of the Companies".

Dear Sir,

Sub.: Confirmation for Comparable Companies Multiple Method

In connection with the captioned matter, we hereby confirm that this method has not been used in Valuation keeping in view the Valuation Report dated 17th December, 2024, on page no. 8, prepared by Mr. Subodh Kumar. It is mentioned therein as follows:

Comparable Company Multiples (CCM) Method

Under the Comparable Companies Multiple Method, the value is determined on the basis of multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation method is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances. The base(s) to which a multiple is commonly applied include sales, EBITDA, cash flows and book value. Given this and the non-comparability with listed companies, this method has not been used to calculate the fair value of equity shares of the Companies.

Detailed Rationale and benefits of the Scheme

The circumstances which justify and/or necessitate the proposed Scheme of Amalgamation of Rudra Ecovation Limited with Shiva Textfabs Limited; and benefits of the proposed amalgamation as perceived by the Board of Directors of these Companies, to the Shareholders and other stakeholders are, inter alia, as follows:

- i. Complementary Operations:** The Transferor Company has expertise in spinning operations which complements the Transferee Company's capabilities in recycling and textile manufacturing. The Transferee Company is one of the largest vertically integrated plastic recyclers in Asia and produces PET chips, fibers, and textiles. The proposed Amalgamation will integrate the Transferor Company's spinning operations to streamline the supply chain.
- ii. Enhanced Market Leadership:** The proposed Amalgamation will strengthen the combined entity's position as a global leader in sustainable textiles, leveraging a fully integrated value chain.
- iii. Operational Synergies:** Integration of the Transferor and Transferee Companies will reduce raw material costs and will enhance manufacturing efficiencies. Consolidation of administrative functions and supply chains will improve profitability of the Combined entity.
- iv. Optimized Asset Utilization:** Physical and other infrastructure of the Transferor Company will be utilized more effectively to drive financial and operational gains.
- v. Economies of Scale:** The merged operations will reduce redundancies, improve resource utilization, and drive cost efficiencies. Scale advantages will enable better pricing and competitive market positioning.
- vi. Integrated Value Chain:** Shiva's raw materials directly feed Rudra's spinning processes, which supply yarn for Shiva's textile production. The fully integrated value chain reduces lead times, improves quality consistency, and minimizes waste.
- vii. Flexibility and Adaptability:** The merged entity will gain flexibility to respond to market demands and industry trends.
- viii. Regulatory Support:** Government policies encouraging recycling and sustainability create a favorable environment for expansion.
- ix. Aligned Global Sustainability Commitments:** The proposed Amalgamation aligns with the sustainability commitments of global brands which require increased recycled content in their products and packaging. Shiva's capacity to recycle 4 lakh kg of plastic bottles daily supports these objectives, giving the combined entity a competitive edge and ensuring steady growth opportunities.

(Formerly known as HIMACHAL FIBRES LIMITED)

- x. **Environmental Impact:** Recycling reduces energy consumption by 60% and CO2 emissions by one-third compared to virgin materials. The merged entity's sustainable focus aligns with the environmental priorities of global clients.
- xi. **Shareholder Benefits:** The improved financial profile enhances shareholder returns through better growth prospects.

The Scheme of Amalgamation is proposed for the aforesaid reasons. The Board of Directors and Management of the Transferor Company and the Transferee Company is of the opinion that the proposed Scheme is in the best interest of these Companies, their Shareholders and other stakeholders.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and auditor's report(s) thereon.

Our opinion on the standalone financial statements does not cover the other information, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also: -

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that

(1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Actual results may differ from these

estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

The area involving significant estimates and judgments are:

- Recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used

(e) Current / non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- It is expected to be realized in, or is intended for sale or consumption in the company's normal operating cycle;
- It is held primarily for the purpose of being traded;
- It is expected to be realized within 12 months after the reporting date; or

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

(f) Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located and condition necessary for it to be capable of operating in.

An item of property, plant and equipment and any significant part initially recognized the manner intended by management. The Company identifies and determines separate useful lives for each major component of the property, plant and equipment, if they have a useful life that is materially different from that of the asset as a whole. is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is de-recognized.

Property, plant and equipment under construction and cost of assets not ready for use at the year-end are disclosed as capital work- in- progress.

Subsequent expenditure

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard or period of performance. All other expenses on existing property, plant and equipment, including day-today repairs, maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

Depreciation

Depreciation on property, plant and equipment has been provided on Straight line method in the manner and over the useful life of the assets prescribed under Part 'C' of Schedule II to the Companies Act, 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

(g) Impairment

Impairment of financial assets

The Company recognizes loss allowance for expected credit losses on financial assets measured at amortized cost. At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit impaired. A financial asset is 'credit impaired'

when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default in payment within the due date;
- the restructuring of a loan or advance by the entity on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganization; or

The Company measures loss allowances at an amount equal to lifetime expected credit losses. Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information. The Company considers a financial asset to be in default when the debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any) is held.

Measurement of expected credit losses

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Impairment of non-financial assets

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value on an appropriate discount factor.

(h) Inventories

The cost of inventories comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. The cost in respect of different classifications of inventories is computed as under:

- in case of raw material, stores and spares, diesel and packing material at first-in-first-out (FIFO) cost method plus direct expenses.
- in case of work-in-progress at raw material cost (determined on FIFO cost method) plus appropriate portion of conversion cost and other overheads incurred depending upon the stage of completion.
- in case of finished goods at raw material cost (determined on FIFO cost method) plus conversion cost, packing cost and other overheads incurred to bring the goods up to their present location and condition.
- Saleable waste/ Scrap has been valued at estimated net realizable value.
- Goods/ material in transit are valued at realizable value to date.

(i) Foreign currency transactions

Transactions in foreign currencies are recorded by the Company entities at their respective functional currency at the exchange rates prevailing at the date of the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currency are translated to the functional currency at the exchange rates prevailing at the reporting date

Exchange differences arising on settlement or translation of monetary items are recognized in the statement of Profit and Loss

(j) Employee benefits

- Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal

or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

– **Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in Statement of Profit and Loss in the periods during which the related services are rendered by employees.

– **Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed quarterly/annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognized in OCI. The Company determines the net interest expense (income) on the net defined benefit liability or the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognized immediately in Statement of Profit and Loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(k) Revenue recognition

- Revenue from Sale of goods

- Revenue is measured at the fair value of the consideration received or receivable. Sales are recognized when the significant risks and rewards of ownership which coincide with transfer of controls of goods, are transferred to the buyer as per terms of contract and are recognized. Amounts disclosed as revenue is net of returns, trade discounts, Good and Service Tax (GST) and amount collected on behalf of third parties.
- The company recognizes revenue when the amount of revenue can be measured reliably and it is probable that the economic benefit associated with the transaction will flow to the company.

- Revenue from other than sale of goods

- Revenue (other than sale) is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Export incentives and subsidies are recognized when there is reasonable assurance that the Company will comply with the conditions and the incentive will be received.
- Interest income is recognized on a time proportion basis taking into account the amount outstanding and the interest rate applicable.
- Insurance claims are accounted for on an accrual basis, to the extent these are measurable and ultimate collection is reasonably certain.

(l) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in Statement of Profit and Loss over the period of the borrowings using the effective interest method (EIR). Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(m) Borrowing costs

Borrowing cost are interest and other costs incurred in connection with borrowing of funds. Borrowing costs directly attributable to acquisition or construction of qualifying assets are capitalized as part of the cost of such assets to the extent that they relate to the period till such assets are ready to be put to use. Qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are recognized as expense in the period in which they are incurred.

(n) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right of use assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Particulars	Lease Term
Leasehold Land	99 Years

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

ii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases except in case of lease contracts with related parties since there exist economic incentive for the Company to continue using the leased premises for a period longer than the 11 months and considering the contract is with the related parties, it does not foresee non-renewal of the lease term for future periods, thus basis the substance and economics of the arrangements, management believes that under Ind AS 116, the lease terms in the arrangements with related parties have been determined considering the period for which management has an economic incentive to use the leased asset (i.e. reasonable certain to use the asset for the said period of economic incentive). Such assessment of incremental period is based on management assessment of various factors including the remaining useful life of the asset as on the date of transition. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs

incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

(o) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts.

i. Financial Assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Classifications

The company classifies its financial assets as subsequently measured at either amortized cost or fair value depending on the company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Business model assessment

The company makes an assessment of the objective of a business model in which an asset is held at an instrument level because this best reflects the way the business is managed and information is provided to management.

Debt instruments at amortized cost

A financial asset is measured at amortized cost only if both of the following conditions are met:

- it is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate ('EIR') method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss.

Debt instrument at fair value through Other Comprehensive Income (FVOCI)

Debt instruments with contractual cash flow characteristics that are solely payments of principal and interest and held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets are classified to be measured at FVOCI.

Debt instrument at fair value through profit and loss (FVTPL)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL.

In addition, the company may elect to classify a debt instrument, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

ii. Equity Instruments

All equity instruments in scope of Ind AS 109 are measured at fair value. On initial recognition an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

All other Financial Instruments are classified as measured at FVTPL.

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily de-recognized (i.e. removed from the company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained

substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognize the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

On de-recognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognized) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognized in OCI is recognized in profit or loss.

Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

With regard to trade receivable, the Company applies the simplified approach as permitted by Ind AS 109, Financial Instruments, which requires expected lifetime losses to be recognized from the initial recognition of the trade receivables.

iii. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of amortized cost, net of directly attributable transaction costs.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial Liabilities measured at amortized cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are de-recognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss.

Derivative financial instruments

Foreign exchange forward contracts are purchased to mitigate the risk of changes in foreign exchange rates associated with forecast transactions denominated in certain foreign currencies. The Company recognizes all derivatives as assets or liabilities measured at their fair value. The changes by marked to market then at each reporting date and the related gains (losses) are recognized in the Statement of Profit and Loss.

De-recognition of financial liabilities

The company de-recognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

(p) Measurement of fair values

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

(q) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less. For the purposes of the Cash Flow Statement, cash and cash equivalents is as defined above, net of outstanding bank overdrafts. In the balance sheet, bank overdrafts are shown within borrowings in current liabilities

(r) Earning per share

Basic earning per share (EPS) are calculated by dividing the net profit or loss after tax for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share(EPS), the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

(s) Provisions and contingent liabilities

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future obligation at pre-tax rate that reflects current market assessments of the time value of money risks specific to liability. They are not discounted where they are assessed as current in nature. Provisions are not made for future operating losses.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or reliable estimate of the amount cannot be made. Contingent assets are disclosed in the financial statements.

(t) Taxation

Income tax comprises current and deferred tax. It is recognized in Statement of Profit and Loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets - unrecognized or recognized, are reviewed at each reporting date and are recognized/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

INDEPENDENT AUDITOR'S REPORT

TO
THE MEMBERS OF
SHIVA TEXTFABS LIMITED
Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **SHIVA TEXTFABS LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2025, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with the standards on auditing specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules there-under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. We have determined the following key audit matters to communicate in our report:

The Company has earned a net profit of Rs. 1305.26 lakhs during the year ended on 31st March, 2025.

In earlier years, the lenders had classified the accounts of the Company as non performing assets and Indian Bank (earlier Allahabad Bank), Union Bank of India, State Bank of India, Punjab National Bank and IDBI Bank Ltd. had assigned all the rights, title and interests in the entire outstanding dues owed by the company and guarantors together with all the securities and guarantees, in favour of Alchemist Asset Reconstruction Company Limited ("AARC") acting in its capacity as trustee of Alchemist-XVI Trust. The total amount, of all above five banks, assigned to AARC is Rs. 20939.25 lakhs (including payment for NCD's) against the total outstanding amount Rs. 86010.52 lakhs. Hence Rs. 65071.27 lakhs of liability is to be waived off on timely payment of dues as per re-structuring letters issued by "AARC".

We draw attention that the Board has approved the scheme of Amalgamation of Rudra Ecovation Limited (formerly Himachal Fibre Limited) with Shiva Textfabs Limited on dated 23.12.2024 and filed with Department of Corporate Services, BSE Limited, Mumbai under regulation 37 of SEBI (listing obligation & Disclosure requirements), Regulation, 2015, by Rudra Ecovation Ltd. The NOC has already been received from BSE and SEBI on dated 25th August, 2025 and application for submission with NCLT is pending.

Our Opinion is not modified in respect of the above matters.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholders' Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

Management is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014.

This responsibility also includes maintenance of adequate records in accordance with the provisions of the Act for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, the matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is responsible for overseeing the company's financial reporting process.

Auditors' Responsibility for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is

higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, *subject to Key Audit Matters*, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2025, and its loss and its cash flows for the year ended on that date.

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. We have conducted our review in accordance with the Standard on Review Engagement (SRE) 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of Company's personnel Responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing specified under section 143 (10) of the Companies act, 2013 and consequently does not enable us to obtain assurance that we would become aware of all the significant matters that might be identified in audit. Accordingly, we do not express an audit opinion.

INDEPENDENT AUDITOR'S REPORT

TO
THE MEMBERS OF
SHIVA TEXTFABS LIMITED
Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **SHIVA TEXTFABS LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st August, 2025, the Statement of Profit and Loss, the Cash Flow Statement for the period then ended, and a summary of the significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with the standards on auditing specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules there-under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. We have determined the following key audit matters to communicate in our report:

The Company has suffered loss of Rs. 925.62 lakhs during the period ended on 31st August, 2025.

In earlier years, the lenders had classified the accounts of the Company as non performing assets and Indian Bank (earlier Allahabad Bank), Union Bank of India, State Bank of India, Punjab National Bank and IDBI Bank Ltd. had assigned all the rights, title and interests in the entire outstanding dues owed by the company and guarantors together with all the securities and guarantees, in favour of Alchemist Asset Reconstruction Company Limited ("AARC") acting in its capacity as trustee of Alchemist-XVI Trust. The total amount, of all above five banks, assigned to AARC is Rs. 20939.25 lakhs (including payment for NCD's) against the total outstanding amount Rs. 86010.52 lakhs. Hence Rs. 65071.27 lakhs of liability is to be waived off on timely payment of dues as per re-structuring letters issued by "AARC".

We draw attention that the Board has approved the scheme of Amalgamation of Rudra Ecovation Limited (formerly Himachal Fibre Limited) with Shiva Textfabs Limited on dated 23.12.2024 and filed with Department of Corporate Services, BSE Limited, Mumbai under regulation 37 of SEBI (listing obligation & Disclosure requirements), Regulation, 2015, by Rudra Ecovation Ltd. The NOC has already been received from BSE and SEBI on dated 25th August, 2025 and application for Merger & Amalgamation has been filed with NCLT.

Our Opinion is not modified in respect of the above matters.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholders' Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

Management is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014.

This responsibility also includes maintenance of adequate records in accordance with the provisions of the Act for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, the matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is responsible for overseeing the company's financial reporting process.

Auditors' Responsibility for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is

higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, subject to Key Audit Matters, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st August, 2025, and its loss and its cash flows for the period ended on that date.

ANNEXURE-B TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **SHIVA TEXTFABS LIMITED** ("the Company") as of August 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the period ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at August 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
